

# SPARROW

Dear European Friends,

Germany wants to wish all of you  
a **HAPPY** and **SUCCESSFUL NEW YEAR 2018!**

This is a brief outline of the first "SPARROW - MEETING " in 2017.  
This letter should inform you about the current status of our project.

1. What has happened until now?

All participants had a chance to get to know each other. Everyone read the project outlines carefully and we all came up with first ideas on how to proceed.

2. What is important at the moment?

- Altmühltal Realschule Beilngries decided to leave the Erasmus project.
- We launched the etwinning platform twinspace for secure communication among all SPARROW-participants.
- We are all keeping the Sparrow corner up to date in our respective countries.
- We all keep an eye on the application project aims.
- We decided to come up with two games for each of the categories (reading, speaking and writing).
- We have started the evaluation of some parts of our project.

3. New agreements

- As Realschule Beilngries is no longer with us in the project, the Sparrow team agreed to travel with 14 students to Italy and 14 students to Spain next year and rearrange the dates of the meetings.
- The next meeting will be in Iceland in May 2018.
- Each country will work to create a logo for the project. After that, we will hold a logo competition.
- We will document and present our chosen games.
- All participating teachers will register on Facebook or etwinning on their own.
- We are thinking about what else to put on our website.

**Looking forward to seeing you soon in wonderful Iceland!**  
**We wish you a good time until we will meet again.**

Nicole Röder and the German SPARROW-Team.
